Professional Summary

*Oracle Certified Senior Full-Stack Engineer with **12+ years** of progressive experience designing, developing, and operating scalable enterprise applications, RESTful microservices, and modern web interfaces. Specialized in **Java (Java 8–21)**, **Spring Boot 3**, **Microservices**, and **Angular / TypeScript**, delivering end-to-end business solutions from responsive frontends to high-throughput backends sustaining **1,000+ TPS** with **99.9% availability**. Proven track record in API design (**OpenAPI/Swagger**, **REST**), asynchronous event-driven messaging (**Apache Kafka**, **RabbitMQ**), database engineering (**PostgreSQL, Oracle, MongoDB**), and containerized deployments with **Docker** and **Kubernetes**. Adept in Agile/Scrum environments, test automation (**JUnit, Mockito, BDD**), and clean code standards. Based in the EU with full work authorization, eager to deliver impactful full-stack solutions for enterprise projects.*

Experience

Altimetrik India Private Limited — Mar 2024 – Dec 2025
Senior Staff Engineer - Product and Platform Engineering — *Bengaluru, India*

- Architected high-throughput microservices architecture supporting **800+ TPS with zero downtime**, using Java 17, Spring Boot 3.2, Spring Cloud, and AWS containerized services (EC2/ECS).
- Reduced monthly cloud infrastructure expenditure by **20%+ across AWS environments**, by implementing Redis distributed caching strategies, connection pooling, and fine-tuning multithreaded distributed locking logic.
- Secured cross-border banking integration services (Citi BSI) achieving **100% regulatory compliance**, by deploying OAuth2, JWT, mTLS, and Apache Kafka event streams for asynchronous transaction auditing.
- Accelerated CI/CD deployment pipeline velocity and version control migration across **150+ enterprise repositories**, by authoring automated migration workflows from BitBucket to GitHub Actions.
- Integrated GenAI models and prompt engineering into developer workflows, boosting **engineering productivity by 25%** while remediating security vulnerabilities via BlackDuck scanning and SonarQube quality gates.

APIwiz (Itorix Software Pvt. Ltd.) — Jun 2022 – Jan 2024
Lead Platform Engineer — *Bengaluru, India*

- Pioneered flagship API Compliance and Monitoring platform modules, scaling real-time traffic visualization and governance to **1,000+ TPS** using Java 11, Spring Boot microservices, Angular, TypeScript, and Domain-Driven Design (DDD).
- Cut multi-cloud operational costs by **20%+ across AWS, GCP, and Azure**, by orchestrating Kubernetes (EKS/GKE/AKS) container clusters, Docker packaging, and Azure DevOps CI/CD pipelines.
- Enhanced distributed data synchronization and rate-limiting, sustaining **sub-10ms response latency under peak load** by integrating Hazelcast in-memory grid and RabbitMQ event queues.
- Eliminated sensitive payload security risks achieving **100% data compliance**, by instituting 256-bit AES encryption, dynamic data masking, and Zero-Trust access control policies.
- Led cross-functional engineering teams and influenced C-level technical stakeholders, expanding **customer feature adoption by 30%** through architecture reviews and developer tooling.

Brillio Technologies — Aug 2021 – May 2022
Senior Technical Consultant — *Bengaluru, India*

- Spearheaded architectural modernization of eBay's People Management platform, migrating **15 interconnected microservices** and web interfaces to Spring Boot and Angular/TypeScript with **zero operational downtime**.
- Optimized database data retrieval speed and backend throughput, reducing **query latency by 35%** by designing RedisCache layers, tuning Oracle SQL schemas, and implementing CQRS patterns.
- Established shift-left automated quality assurance practices, elevating **unit test coverage to 85%+** by instituting JUnit, Mockito, and automated SonarQube code validation gates.

IG Infotech Dec 2019 – Aug 2021
Senior Developer *Bengaluru, India*

- Engineered global derivatives trading onboarding microservices, serving **millions of active traders worldwide** with **99.9% availability** using Java 8, Spring Boot 2.4, Microservices, and Oracle DB.
- Accelerated trader onboarding velocity by **40%**, by building automated KYC, risk assessment, and audit logging workflows with OAuth2/JWT security and Cucumber BDD acceptance testing frameworks.

NSC Global (Contracted to AT&T) Feb 2017 – Dec 2019
Senior Software Engineer *Bengaluru, India*

- Sustained and modernized core telecom Business Information Systems, maintaining **99.9% uptime for 27 high-throughput applications** across US regions using Java/J2EE, IBM WebSphere, Tomcat, RabbitMQ messaging, and Oracle SQL.

Attra Infotech Pvt. Ltd. Oct 2013 – Feb 2017
Software Engineer / Senior Software Engineer *Bengaluru, India*

- Delivered SOA web services and workload automation processing **thousands of daily financial transactions**, utilizing Java 7, Spring MVC, JAX-WS SOAP, Control-M scheduling, and Tomcat/WebSphere application servers.

Education

Visvesvaraya Technological University 2009- 2013
Bachelor of Engineering in Electronics And Communication *Bengaluru, India*

Technical Skills

Full-Stack & Frontend: Angular, TypeScript, JavaScript (ES6+), Modern Web Components, Single-Page Applications (SPA), RxJS, HTML5, CSS3, React.js

Core Backend Ecosystem: Java (Java 8–21, J2EE), Spring, Spring Boot 3.x, Spring Cloud, Hibernate/JPA, RESTful APIs, Microservices, Python, SQL

Architecture & Distributed Systems: Microservices Architecture, Domain-Driven Design (DDD), Event-Driven Architecture (EDA), CQRS, OpenAPI/Swagger, Resilience4j, High Availability, Distributed Caching

Messaging & Event Streaming: Apache Kafka (Fundamentals Certified), RabbitMQ, JMS, IBM WebSphere MQ, ActiveMQ, AWS SQS/SNS

Containers, Cloud & DevOps: Docker, Kubernetes (K8s), OpenShift, CI/CD Pipelines (GitHub Actions, Azure DevOps, BitBucket), Maven, AWS, Azure, GCP

Databases & In-Memory Caching: PostgreSQL, Oracle SQL, MySQL, MongoDB, Redis / RedisCache, Hazelcast, Flyway Schema Migration

Security, Testing & Quality: OAuth2, JWT, mTLS, SonarQube Clean Code, JUnit 5, Mockito, Cucumber (BDD), BlackDuck Vulnerability Remediation

AI & Developer Tooling: Generative AI Engineering (Mastermind Certified), RAG Architecture, LLM Workflows for Automated Testing & Code Quality

Languages

English **Deutsch**

Certifications

Generative AI Engineering Mastermind (Outskill, 2026)
Oracle Certified Associate, Java SE 8 (Oracle University, 2025)
Goethe-Zertifikat / ÖSD Deutsch A1 (ÖSD, 2025)
Generative AI Mastermind (Outskill, 2025)
RAG (Retrieval-Augmented Gen) Developer (CreateBytes, 2026)
Kafka Fundamentals (Coursera, 2025)
Modern JavaScript with ES6 (Coursera, 2025)
Web Component Dev using Java Technologies (NIIT, 2013)
