Yathin Kullachana Somaiah

Senior Backend & Platform Software Engineer | *Java (8–21) • Spring Boot 3 • Distributed Systems • Cloud-Native*

Saarbrücken, Germany (*Unrestricted German Work Permit*) | yathin.ksomaiah@gmail.com

linkedin.com/in/yathin-ks | github.com/yathin51 | yathin51.github.io

Technical Skills & Languages

Backend & Architecture: Java (8–21), Kotlin, Spring Boot (2.x/3.x), Hibernate/JPA, RESTful APIs, OpenAPI, Microservices, Domain-Driven Design (DDD)

Frontend & Web Apps: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Web UI, Full-Stack Enterprise Applications

Databases & Storage: PostgreSQL (Query Tuning, Schema Design), RDBMS (MS SQL, Oracle DB), Redis, MongoDB, Flyway Migrations

Testing, Cloud & DevOps: TDD/BDD (JUnit 5, Mockito, Cucumber), Docker, Kubernetes, CI/CD (GitHub Actions), Linux, AWS, SonarQube, Code Reviews

AI-Native & Languages: Model Context Protocol (MCP), AI-Agents, Claude Code, GitHub Copilot | English (Fluent/C2), German (B2) | OCA Java 8

Professional Experience (8+ Years)

Altimetrik India Pvt. Ltd. **Mar 2024 – Dec 2025**

Senior Staff Engineer – Platform Architecture & Backend (Blackhawk Network & Citi) *Bengaluru, India*

- Architected and scaled distributed **Java 17/21** and **Spring Boot 3** microservices handling **800+ TPS** with **20 %+** AWS cloud spend reduction.
- Engineered event-driven streaming pipelines with **Apache Kafka** and mTLS/OAuth2 for Citibank BSI; reduced defect escape rates by **30 %** via TDD/BDD (JUnit 5).

APIwiz (Itorix Software Pvt. Ltd.) **Jun 2022 – Jan 2024**

Lead Platform Engineer (Full-Stack) *Bengaluru, India*

- Delivered end-to-end modular platform services with **React** frontend and **Spring Boot** backend; standardized RESTful APIs for **1,000+ TPS**.
- Optimized relational schemas on **PostgreSQL**, reducing query latency by **35 %**; accelerated Docker CI/CD delivery pipelines by **40 %**.

Brillio Technologies **Aug 2021 – May 2022**

Senior Technical Specialist – Backend Lead (Client: eBay.com) *Bengaluru, India*

- Decomposed legacy monolithic platform into **15 Spring Boot microservices** with zero downtime using Domain-Driven Design (DDD).
- Elevated automated test coverage to over **85 %** using **JUnit 5** and Mockito while enforcing strict SonarQube quality gates.

IG Infotech (Derivatives Trading) **Dec 2019 – Aug 2021**

Senior Software Engineer (FinTech & Platform) *Bengaluru, India*

- Engineered fault-tolerant Java/Spring Boot backend services for **1 Million+** trading accounts; cut production defects by **30 %** via Cucumber BDD/JUnit.
- Integrated regulatory audit-logging mechanisms, real-time market interfaces, and strict compliance verification workflows.

NSC Global (Contracted to AT&T) **Feb 2017 – Dec 2019**

Software Engineer – Backend & Automation *Bengaluru, India*

- Developed scalable RESTful Web Services and orchestrated asynchronous message coupling across **27 enterprise systems** via **RabbitMQ**.

Education & Certifications

Visvesvaraya Technological University (VTU) **Aug 2009 – Jul 2013**

Bachelor of Engineering in Electronics and Communication (Recognized in Germany: Anabin H+) *India*

Certifications: Oracle Certified Associate Java Programmer (OCAJP 8) | Confluent Kafka Fundamentals | Generative AI Mastermind
